Index Volume 51, 1996

Research Papers

Adams, P., Bryant, D.E., Khodkar, A.: On the existence of super-simple designs with block size 4 230

Baragar, A.: Products of consecutive integers and the Markoff equation . . 129

Bennett, F.E., Wei, R., Zhu, L.: Incomplete idempotent Schröder quasigroups and related packing designs 100

Brešar, M.: On a certain identity satisfied by a derivation and an arbitrary additive mapping II 83

Brillouet-Belluot, N.: Multiplicative symmetry and related functional equations 21

Bryant, D.E., see Adams, P. 230

Chilakamarri, K.B., Mahoney, C.R.: Unit-distance graphs, graphs on the integer lattice and a Ramsey type result 48

Dad-del, A.A.: Covering abelian groups with cyclic subsets 137

Ebanks, B.R.: Fundamental equation of information revisited 86

Grace, S.R.: Oscillation criteria for retarded differential equations with a nonlinear damping term 68

Haruki, S., see Tsutsumi, A. 270

Hoffman, D.G., Lindner, C.C., Sharry, M.J., Street, A.P.: Maximum packings of K_n with copies of K_4-e 247

Huang, W.: Geraden-Abbildungen, die den Flächeninhalt 1 von Dreiecken erhalten 277

Jarczyk, W.: On an equation of linear iteration 303

Kairies, H.-H.: On the optimality of a characterization theorem for the gamma function using the multiplication formula 115

Khodkar, A., see Adams, P. 230

Lindner, C.C., see Hoffman, D.G. 247

Mahoney, C.R., see Chilakamarri, K.B. 48

Mikheev, P.O.: On a problem of Chern-Akivis-Shelekov on hexagonal three-webs 1

Páles, Zs., Zeidan, V.: Separation via quadratic functions 209

Sharry, M.J., see Hoffman, D.G. 247

Sinopoulos, P.: Generalized sine equations, III 311

Smajdor, A., Smajdor, W.: Affine selections of convex set-valued functions 12

Smajdor, W., see Smajdor, A. 12

Stetkaer, H.: On a signed cosine equation of N summands 294

Street, A.P., see Hoffman, D.G. 247

Tsutsumi, A., Haruki, S.: On an application of hypoellipticity to solutions of functional equations 270

Wei R., see Bennett, F.E. 100

Zeidan, V., see Páles, Zs. 209

Zhu, L., see Bennett, F.E. 100

Bibliography
Works on functional equations and inequalities in several variables–XVIII 181

Report of Meeting
The Thirty-third International Symposium on Functional Equations, May 21-May 27, 1995, Caldes de Malavella, Catalonia, Spain 145

Summaries
Brzdęk, J.: On the Baxter functional equation 206
Domsta, J.: A limit formula for regular iteration groups 207
Forti, G.L., Paganoni, L.: A system of functional equations related to plurality functions. A method for the construction of the solutions 328
Gaweł, B.: Some functional inequalities and their Baire category properties 207
Lester, J.: Triangles I, II, III 328
Paganoni, L., see Forti, G.L. 328
Stetkaer, H.: On a signed cosine equation of N summands 206
